

Notes:

- Reverse for SL portal header A sections
- Face frames with 1/4" MDF using countersunk flat head self tapping screws. No glue
- Screws should be placed at least every 1'. Add more as necessary
- Facing covers front, bottoms, and offstage sides of frames with fronts capping bottoms and offstage side
- Be aware of facing opening on offstage 4' of bottom facing. Front facing will have 1/4" joq here that should likely be routed in
- Attach shackle plates and keeper plates using 1/4" rated hex head bolts, washers, and nylocks.
- All fasteners used must be aluminum, stainless steel, or zinc coated steel to prevent galvanic corrosion
